PROFESSIONAL SUMMARY

Data Engineer with hands-on experience building pipelines, data ingestion workflows, and secure APIs through a data engineering internship at SCFHS and end-to-end projects. Skilled in Python, SQL, Apache Airflow, Docker, with cloud experience on Azure, Google Cloud, and Snowflake. Brings a strong focus on data quality, monitoring, and reliable orchestration, backed by IBM and DataCamp data engineering certifications.

EXPERIENCE

Data Engineering Intern | Oct 2025 – May 2026

Saudi Commission for Health Specialties | Riyadh, KSA

- Built and orchestrated ETL pipelines using Apache Airflow DAGs to deliver data for downstream analytics.
- Ingested data from APIs and dynamic websites using Python (Requests, Selenium) and profiled the datasets.
- Developed secure, production-ready APIs (Python, FastAPI, WSO2) for data sharing, monitoring, and monetization.

Software Development Intern | Jun 2024 – Sep 2024

King Faisal University | Hofuf, KSA

- Built the KFU Space web app using ASP.NET Core MVC, Entity Framework, SQL Server, JavaScript, and Bootstrap.
- Designed the database architecture, maintained code quality, and collaborated through Git.

PROJECTS

Sentinel | Real-Time Healthcare Data Quality & Drift Monitoring

- Built a real-time pipeline that monitors FHIR healthcare data streams for data quality issues and drift, detecting null spikes, schema changes, and unexpected volume shifts against learned baselines.
  Tools: Python, Apache Kafka, PostgreSQL, Docker, Google Cloud, Synthea, FHIR

Bayan | Saudi Regulations & Data Hub

- Built a version-tracking platform for changes in Saudi regulations, with Power BI dashboards for trend analysis.
  Tools: Azure, Apache Airflow, SeaweedFS, PostgreSQL, Docker, Power BI

Najm | Accident Reporting System with AI and Drones (Third Place)

- Built a YOLOv5 model to identify vehicles and their fault percentages; programmed a Tello drone to take pictures.
  Tools: Python, YOLOv5, MySQL, Flask, Flutter

SKILLS

Programming: Python, SQL, JavaScript, HTML, CSS.
Data Engineering: ETL/ELT Pipelines, Data Ingestion, Data Orchestration, Data Modeling, Data Quality.
Tools & Platforms: Apache Airflow, Apache Kafka, Docker, Git.
APIs & Integration: API Development and Integration (FastAPI, WSO2), Web Scraping.
Databases & Cloud: PostgreSQL, MySQL, SQL Server, DuckDB, Snowflake, NoSQL, Azure, GCP, AWS.
Analytics & ML: Power BI, Tableau, Data Analysis, Data Visualization, Supervised & Unsupervised ML.
Soft Skills: Problem Solving, Communication, Collaboration, Adaptability, Leadership, Initiative.

EDUCATION & TRAINING

Data Engineering Bootcamp, Saudi Digital Academy | Aug 2026 – Oct 2026 | *Champion of the Week*
Data Science and Machine Learning Bootcamp, Tuwaiq Academy | Jan 2025 – Mar 2025
Bachelor of Computer Science, King Faisal University | Sep 2019 – Aug 2024 | *GPA 4.31, Second-Class Honors*

CERTIFICATIONS

- DataCamp Certified Data Engineer (2026)
- IBM Data Engineering Professional Certificate (2026)
- Associate Data Engineer in Snowflake (2026)
- Tableau Business Intelligence Analyst Professional Certificate (2025)

LANGUAGES

Arabic (Native) | English (IELTS Academic 7.5 / C1, STEP 91)
